# Jakaar JK2 Wheel

This lightweight series of wheels is designed for use on BBQ's, lawn mowers, shopping trolleys and other general applications.

The new rounded design still incorporates the modern box section giving good strength. The wheel, incorporating a high density polyethelene hub and PVC tyre is suitable for prolonged outdoor exposure.

Available in White and Black, other colours available on request.

Possible Applications:

Product Code	Product Name	Diameter (mm)	Tyre Width (mm)	Boss Width (mm)	Wheel Offset (mm)	Hubcap Option	Bore Diameter (running fit)	Bearing Option	Approx Load Capacity KG

# Jakaar 3" Wide Wheel

This robust wheel is used as a front wheel on Golf Buggies. The load capacity of this wheel makes it suitable for heavy load carts or trolleys. This product has been successfully installed on ground maintenance products (e.g. seeders and aerators). As can be seen, the wheel inner can be covered using a spat. Available in white, other colours on request.

Possible Applications:

Product Code	Product Name	Diameter	Tyre Width	Boss Width (mm)	Wheel Offset (mm)	Hubcap Option	Bore Diameter (running fit)	Bearing Option	Approx Load Capacity KG

# Golf Wheel PVC

This wheel allows easy access to beaches, tracks and trails. It is used for hauling small to medium sized articles over beaches (e.g. dive gear, outboard motors, kon-tikis, kayaks). Its wide wheel width reduces sinkage in soft sands and soils.

Due to its compact and lightweight nature it can be easily stowed in kayaks. It is constructed of UV resistant materials, allowing it to stand up to the harsh New Zealand coastal climate.

Possible applications:

Product Code	Product Name	Diameter (mm)	Tyre Width (mm)	Boss Width (mm)	Wheel Offset (mm)	Hubcap Option	Bore Diameter (running fit)	Bearing Option	Approx Load Capacity KG
1667BL0000	Golf Wheel PL (1/2") PVC Black	235	70	60	∅	JK3	1/2"	PL	60
1668BL0000	Golf Wheel DB (1/2") PVC Black	235	70	60	∅	JK3	1/2"	DB	60
1651BL0000	Hubcap JK3 Black	Fits all the above wheels							

PL - Plain Bore Polymer

DB - Double Sealed Ball Bearings

+ Non stock item - only available from an order qty of 1000 units

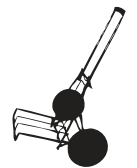

# Golf Wheel Wide

This smart looking wide wheel is used extensively on top-end Golf Buggies and has been tested at 40°C to carry 50kg on each wheel making it suitable for powered buggies. This wheel is guaranteed for 2 years normal use. Other applications for this wheel include gas trolleys and garden carts.

Possible Applications:

Product Code	Product Name	Diameter (mm)	Tyre Width (mm)	Boss Width (mm)	Wheel Offset (mm)	Hubcap Option	Bore Diameter (running fit)	Bearing Option	Approx Load Capacity KG
1758BL0012	Golf Wheel JK4 DB (1/2"b) Black	305	87	54	ø	ZP12	1/2"	DB	50

# Pack & Store

Made from durable polypropylene, Pack & Stores are a versatile product, ranging from industrial to domestic applications. Pack & Stores are well established in the education sector. With their broad range of colours, lightweight and hardwearing nature they are highly regarded in classroom applications. As the material is food-grade (FDA approved), they can be used in food preparation and storage for both commercial and domestic purposes. Easily stacked and transported, these bins are a simple and effective storage solution.
